

Stand out with our brands

Our bags won top honors at Paris Fashion 2003

Faux suede floral-print handbags

Isn't it time to make your collection a little more outstanding? Start by sourcing our P&F, Fitwell and Fitwell Florence handbags – they were the talk of Paris Fashion 2003. Only a handful of suppliers are invited to attend this exclusive show. And our bags were shoulders above the rest. Out of the eight top products selected by the show committee, three were from our brands. We were the only exhibitor from the Asia/Pacific region to earn this distinction.

And distinction is what you'll get when you display our bags on your shelves. Our design director is from Florence, Italy – a city renowned for cutting-edge fashion – and has been in the industry since 1964. With his talent and support, we develop 10 stylish collections monthly that include four to five bags. You'll find something for each of the four seasons in our showroom, instead of being limited to just spring/summer and autumn/winter designs.

Just as the seasons are different, so are your customers. That's why each brand targets a different consumer group:

- P&F: Simple yet elegant for the budget-conscious woman
- Fitwell: The latest in international fashion and style
- Fitwell Florence: Opulent genuine cowhide bags manufactured exclusively in Italy

Our monthly capacity is 30,000 pieces. We have factories in Shanghai, Guangdong and Italy to respond flexibly to your demands. While our standard delivery time is 30 days, we can trim it down to 15 days for urgent requests. And we finish samples within only 48 hours. To assist with your promotional activities, we have a selection of ready-made brochures, pamphlets and newsletters. Let our brand make you more outstanding in the marketplace. To learn how, get in touch with us today.
