

Our 2006 quota lets you stay in China

Up to 7 million pieces of children's wear and sleepwear

Quotas are back for exports to the US and EU. Should you take mainland China off your sourcing plan? Not if you buy from us.

In 2006, we're permitted to export up to 7 million pieces of children's wear and sleepwear – one of the largest quotas in our industry. And our 50 partner suppliers can turn out 1 million pieces every month. That means you can confidently purchase from us, knowing we have the allowance and capacity to fill your orders throughout the year.

With over 10 years of export experience, we understand just what you need from a supplier. We have 10 trade representatives who speak English and Japanese for your convenience. We won't keep you waiting for a reply. You'll hear from us within just 12 hours. And to help you control inventory costs, we welcome minimum orders for 500 pieces – something you won't find with most suppliers.
